- Returns for periods exceeding one year are annualised.
- The return for the Consumer Price Index (CPI) is to the end of the previous month. Due to the reweighting of the CPI from January 2009, this number reflects a compound of month-on-month CPI returns.  
The historical numbers used are the official month-on-month numbers based on a composite of the previous inflation series (calculations before January 2009) and the revised inflation series (calculations after January 2009).
- The MSCI World Index (All countries) returns are adjusted to correspond with global investment prices received.
